Report to the New Jersey Legislature
pursuant to P.L. 2007, c.250
(Investments in Iran)

P.L. 2007, Chapter 250 (the "Act") provides that no assets of any pension or annuity fund under the jurisdiction of the Division of Investment (the "Division") shall be invested in any foreign company that has an equity tie to the government of Iran or its instrumentalities and is engaged in business operations with entities in the defense sector or nuclear sector of Iran, or engaged in business operations with entities involved in the natural gas or petroleum sectors of Iran, in or with that government and its instrumentalities. This prohibition shall not apply to the activities of any foreign company providing humanitarian aid to the Iranian people through either a governmental or non-governmental organization. The Act requires the State Investment Council and the Director of the Division (the "Director") to take appropriate action to sell, redeem, divest or withdraw from any investment held in violation of the provisions of the Act.

The Act further requires that the Director annually file with the Legislature a report on all investments sold, redeemed, divested or withdrawn in compliance with the Act. Each annual report shall provide a description of the progress which the Division has made since the previous report and since the enactment of the Act in implementing the provisions of the Act.

In accordance with the provisions of the Act, the Director reviews the recommendations of and consults with an independent research firm. The Division utilized MSCI through September 2012, and engaged IW Financial for a three year contract which commenced in November 2012.

The following summarizes all investments sold in compliance with the Act since our last report and our initial report. The pension and annuity funds did not hold securities of any companies on the prohibited list as of the date of this report.
